

OBJECTIVE

Computer Science undergraduate with hands-on experience in full-stack development, RESTful APIs, and AI-powered applications, skilled in building scalable and user-centric software solutions.

EXPERIENCE

Bluestock

Nov 2024 – Dec 2024

Software Development Engineer Intern

- Designed and developed scalable **RESTful APIs** using Node.js, improving integration efficiency by **30%** and supporting concurrent user workflows.
- Optimized frontend performance by reducing load time and improving responsiveness, resulting in a **20% increase in user engagement**.
- Implemented API testing workflows using **Postman**, identifying edge cases and reducing potential production issues.
- Improved system reliability by refining API error handling and response structures, ensuring consistent client-server communication.

PROJECTS

MedhAI: [Full-stack AI-powered SaaS Platform]

April 2025 – Aug 2025

Tools: [React.js, Tailwind CSS, Clerk, Stripe, PostgreSQL, Node.js, Express.js, OpenAI API]

- Developed a **full-stack AI SaaS platform** enabling real-time generation of **articles, blog titles, and AI-enhanced images**, with support for both free and premium user tiers.
- Implemented secure **authentication and billing workflows** using **Clerk and Stripe**, enabling role-based access to premium features and **automated credit deduction for AI usage**.

placement.AI: [AI-powered real-time mock interview platform]

March 2025 – Jun 2025

Tools: [Next.js, Tailwind CSS, Vapi SDK, Firebase, Google Generative AI (Gemini), TypeScript]

- Developed a **voice-based mock interview platform** to help users practice **interviews** with **AI asking questions in real time**.
- Integrated **speech-to-text, text-to-speech**, and a simple dashboard to review past sessions and feedback for improvement.

uniGuide

Jan 2025 – Feb 2025

Tools: [React.js, Tailwind CSS, OAuth]

- Developed a platform to help **students, travelers, and new residents** adapt to new cities through personalized recommendations and **local guidance**.
- Implemented **OAuth login** and client-side routing for secure access and smooth user onboarding.
